Lock Body Material	Stainless Steel
Finish	Black / Antique Copper
Battery	1 x 4200 mAh lithium-ion rechargeable battery
Lock Weight	2.3 kg approx
Door Thickness	40-100 mm
Door Type	Wooden/Metal

## USER INTERFACE: OzoLife App

The image shows a smartphone displaying the 'Smart Door Lock' app interface. The screen features a large green circular button with a lock icon, a battery level indicator showing 'Medium', and a list of menu items: 'No Logs', 'Member Management' (with a sub-item '2 Family Member(s)'), 'Temporary Password' (with a sub-item 'Offline Password'), and 'Smart Linkage'. Three callout boxes with numbered circles (1, 2, 3) point to specific features: 1 points to the battery indicator, 2 points to the Member Management menu item, and 3 points to the Temporary Password menu item.

**1 Power Display:** When the phone is connected to the lock, you can see the lock's real time battery life.

**2 Member Management:** You can add family members, assign fingerprint, password & RFID card for members.

**3 Temporary Code:** Use this to create temporary passcode to unlock the lock.
